# PRESTIGE RACK

## Versions

| RACK MODEL   | rack weight |     | weight supported |     |
|--------------|-------------|-----|------------------|-----|
|              | kg          | lb  | kg               | lb  |
| 2 levels     | 24          | 53  | 100              | 220 |
| 3 levels     | 28          | 62  | 150              | 331 |
| 4 levels     | 34          | 75  | 170              | 375 |
| 5 levels     | 41          | 90  | 200              | 441 |
| 6 levels     | 50          | 110 | 225              | 496 |
| 2+2 tandem   | 38          | 84  | 200              | 441 |
| 2+2+2 tandem | 52          | 115 | 250              | 551 |
| 3+3 tandem   | 44          | 97  | 250              | 551 |
| 3+3+3 tandem | 63          | 139 | 300              | 661 |

Rack's depth: 46 cm (adaptable on depth)

\*usable space: total net space between tiers

## Technical Construction Details

- 1 PLATFORM**  
A **stainless steel, anti-magnetic** structure supports a specially treated base to set up a turntable or other components. Different versions and materials are available. Check **Accessories brochure**.
- 2 STAINLESS STEEL TOP ATTACHMENTS ON RACK UPRIGHTS**  
Each top is made with **conical recess** to support the spikes of the turntable platform.
- 3 EXTERNAL STRUCTURE**  
It's made of metal filled with special particles and elastomers. The uprights have a **diameter of 45 mm**. These factors create a rack heavy, resistant and stable. The resonance coefficient of the structure is significantly lowered. The paint used is textured for diffusion purposes.
- 4 INTERNAL SUSPENDED STRUCTURE**  
Isolated from external structure. **Eliminates vibrations** that are transmitted from solid and acoustic sources through the creation of decouples; steel needles supported on isolating discs. These provide extra tiers of **anti-resonant protection**. This suspended audiorack has a **triple decoupling**.
- 5 TEFLON CILINDERS**  
Support the internal structure and isolates from the external structure. (**Diameter 30 mm**)
- 6 EARTH TERMINAL**  
To connect electronics (essential for phono) Check manual to connect properly if is necessary.
- 7 BRIDGE BAR**  
Height variable rear rods strengthen the external structure to guarantee stability and ensure **free easy access to install components**.

- 8 INTERNAL FRAME**  
These frames are **adjustable in height** to place any size of component properly. They are locked on the vertical stainless steel bars of the suspended structure.
- 9 LINEAR ARMS**  
Arms made from anti-magnetic stainless steel. The arms hold adjustable spikes (can be located in different positions) also support isolating discs and damping pads. **Total flexibility in different positions and easy to change.**

This system allows to set up the best support position to place electronic components.

- 10 ISOLATION DISCS & DAMPING PADS.** Support the electronic components (without any need for shelves). Easy installation facilitated by an elastic insert which provides **stability** to place electronic components on the adjustable spikes.
- 11 DECOUPLING BASE**  
Stainless steel discs support the spikes of the uprights. Two types of floor pads are included, with different sonic behavior, depending on the room acoustics. **Check manual to use the proper pads for the bases.**

## Accessories included

### Dampers.

Special anti-magnetic & anti-vibration damper **STANDARD 1,4 kg.** in each level for each electronic component. Avoid parasitic vibrations and radio frequency interference in digital systems.

## Optional accessories (check accessories catalog for more options)

Glass shelf

Floor platform

Turntable platform

ARTESANÍA AUDIO

the high end rack company

***“ Artesania Audio means exceptional quality and technology ”***  
(ALTA FIDELIDAD, Spain)

***“ Parasitic noise disappears completely and a beautifully clean sound is the result ”***  
(HAUTE FIDÉLITÉ, France)

***“ Artesania racks extract every last drop of potential from the components it supports ”***  
(HAUTE FIDÉLITÉ, France)

***“ The perfect rack? There are no shelves to flap about under your equipment,  
its arguably the best equipment support known ”***  
(HI-FI NEWS, UK)

***“ Artesania Audio wants components to sound like themselves (in mechanical isolation),  
Blue Moon Award for Rack ”***  
(SIXMOONS, Switzerland)

***“ Incredibly neutral, the overall solidity and control of my system,  
Most Wanted Component award ”***  
(STEREO TIMES, USA)

***“ Music Sounded bigger, better recorded, you could hear more into the recording and  
the frequency extremes were as effortless and natural as the mid-band ”***  
(HI-FI +, UK)

***“ The Artesania Rack possesses the ability to improve the overall sonic performance of  
any separate component or system as a whole ”***  
(ENJOY THE MUSIC, USA)
