ACCESSORIES

PLATFORMS

TREATED GLASS PLATFORM

Exoteryc version dimensions: **72,5 x 57 cm** (supports **200 kg**)
Prestige and Improved version dimensions: **69 x 54 cm** (supports **200 kg**)
Stainless steel anti-magnetic structure supports a specially treated base to set up a turntable or other components.

KRION PLATFORM

Available only for Exoteryc Rack.
 Dimensions: **72,5 x 57 cm** (supports **200 kg**)
 It's made of **two-thirds natural minerals** (ATH-Aluminium trihydride) and a low percentage of **high resistance resins**.

DIGITAL SERVER PLATFORM

Available only for Exoteryc Rack.
 Dimensions: **70 x 55 cm** (supports **100 kg**)
 It's made of MDF with a layer of neoprene and special paint.

FLOOR PLATFORMS

ELECTRONIC PLATFORM

Available in 3 versions: **72,5 x 57 cm / 69 x 54 cm / 50,5 x 48 cm** (each model supports **200 kg**). *Special versions upon request.
 Maintains structural resonance point below 6,5 c/s. Damping pads included. Neoprene and teflon depending on room acoustics.

GLASS SHELVES

SHELVES

While other companies search for solid materials with good anti-vibrational response, Artesania Audio has developed **racks without shelves and totally isolated**. The result is that the electronics generate sound behaviors as were initially preconceived. The materials used have natural high frequencies. The combination with the cushioning material achieves the resonance amplitude is very low, even with very high dynamic range (90 db). **The shelves are supported by polyamide insulating discs and pads neoprene maximum absorption and blocking features** (preventing possible movements of horizontal traslation). **The discs are supported on adjustable steel needles, located on the metal racks** (to decrease transmision). We placed four needles support because the mass of the equipment is not uniform.

Regardless of this fact, in case that for aesthetic reasons or the electronics measuring less than 11 cm wide, our company has shelves as well.

Types of shelves:

TREATED GLASS SHELVES available for EXOTERYC, PRESTIGE and IMPROVED racks.

KRION SHELVES available only for EXOTERYC racks.

DAMPERS

Dampers are **anti-magnetic and shock absorbing masses** that act **against vibrations** generated in electronic components. These could be from power sources (transformers) and could also be a consequence of the undulatory movement of sound as it bounces back off the furniture and cabinets housing electronic equipment. These air-borne vibrations cause interference and background noise that are detrimental to the listening experience.

With digital reader sources, dampers act as "armour" against radiofrequency signals and other types of waves, and consequently reduce vibrations. When dampers are installed in all electronic components of a sound system, **clearer and more defined sounds are achieved across all frequencies.**

The anti-vibration action of the dampers is equally effective with any other kind of unit from our range.

Dampers provide an extra control across the whole passband. They should be considered as the final touch in **achieving clarity, tone and coherence in sound reproduction** on room acoustics.

STANDARD damper

IMPROVED damper

MK-III damper

DECOUPLING DISCS

The objective in our products is absolute **neutrality in sound reproduction.** To obtain our goal, we have created the DECOUPLING DISCS.

These products **isolate** the Artesanía Audio Racks from **any type of external coming from solid transmission.**

EXOTERYC BASE and **PRESTIGE BASE** are coming with **damping pads** that could make a difference in the sonic behavior of the racks and overall sound performance of the audio system.

IMPROVED base

PRESTIGE base

EXOTERYC base

Damping pads included on PRESTIGE and EXOTERYC bases.

White damping pad

Insulating effect, but not absorptive or damping. They don't increase the overall absorption coefficient from the cabinet. (most common used in case the room has been acoustic treated)

Black damping pad

The black bases are made of neoprene, with absorbent or damped effect. They increase the overall absorption coefficient from the cabinet. (most common used in case the room has not been acoustic treated)

Any special & custom version upon request

Accessories are supplied 95% assembled

ARTESANÍA AUDIO

the high end rack company

“ Artesania Audio means exceptional quality and technology ”
(ALTA FIDELIDAD, Spain)

“ Parasitic noise disappears completely and a beautifully clean sound is the result ”
(HAUTE FIDÉLITÉ, France)

“ Artesania racks extract every last drop of potential from the components it supports ”
(HAUTE FIDÉLITÉ, France)

***“ The perfect rack? There are no shelves to flap about under your equipment,
its arguably the best equipment support known ”***
(HI-FI NEWS, UK)

***“ Artesania Audio wants components to sound like themselves (in mechanical isolation),
Blue Moon Award for Rack ”***
(SIXMOONS, Switzerland)

***“ Incredibly neutral, the overall solidity and control of my system,
Most Wanted Component award ”***
(STEREO TIMES, USA)

***“ Music Sounded bigger, better recorded, you could hear more into the recording and
the frequency extremes were as effortless and natural as the mid-band ”***
(HI-FI +, UK)

***“ The Artesania Rack possesses the ability to improve the overall sonic performance of
any separate component or system as a whole ”***
(ENJOY THE MUSIC, USA)
